RELEVANT EXPERIENCE

Patch of Land – Patch IT - Software Developer (*Sherman Oaks, CA*)

Feb. 2018 – Present

- Maintained existing objects, arranged object data into master templates, and utilized a translation engine in order to efficiently display 14 different kinds of loans on our Magento website as products for investors to invest in.
- Integrated our Magento website with Nova, a Loan Origination System, to allow it to launch loans onto our platform. After Nova was found to be unstable, I created a utility to launch products directly from an excel document in a crucial fix for the company.
- Adjusted checkout, curated past collections, and created a new kind of product with unique flow and views to allow investors to invest equity directly on our platform.
- Built a new Borrower Application web-form that integrated with Salesforce.
- Assisted with Internal Tech Support when asked.

Patch of Land – Patch IT - Product Manager (*Sherman Oaks, CA*)

Aug. 2014 – Aug. 2015

- Managed our instance of SugarCRM for Operations, which had no proper native solutions to deal with crowdfunding real estate loan origination or processing.
- QA tested for all software development.
- Manually launched loans on our Magento platform by painstakingly copying data from our SugarCrm and Salesforce CLS instances.
- External Technical Support for high profile Investors.
